

RULLI INCISI

ENGRAVED ROLLS · ROULEAUX GRAVES · RODILLOS PARA INCISIONES

Rulli in acciaio a tutta temprata per seguire incisioni su nastri. Sono disponibili per tutti i tipi di laminatoio, compreso ovviamente lo schiacciafilo. A seconda della larghezza della fascia e della complessità del disegno, sono divisi in varie categorie (A-B-C...). Siamo inoltre in grado di fornire rulli per incisioni su disegno originale del Cliente.

Rolls in completely hardened steel to execute engravings on strips. Available for all types of rolling mills, including the wire-squeezing type. Depending upon the strip width and of the drawing complexity, they are divided into various classes (A-B-C...) Besides we are able to supply rolls for engravings according to the Customer's original drawing.

Rouleaux en acier trempé à coeur pour obtenir des bandes gravées. Ils sont disponibles pour tous les types de laminaires, y compris l'écrase-fil. On les divise en différentes catégories (A-B-C...), en fonction de la largeur de la bande et de la complexité du dessin.

Nous pouvons en outre fournir des rouleaux pour gravures sur dessin original du Client.

Rodillos en acero a todo temple para efectuar incisiones sobre cintas. Son disponibles para todos los tipos de laminadores incluso obviamente el aplasta-alambre. Según la amplitud de la faja y la complejidad del diseño, se dividen en varias categorías (A-B-C...). Además podemos abastecer rodillos para incisiones de diseños originales del Cliente.
